Impacts of the Innovative Mobility Programs

- Giving an opportunity for universities in the UMAP consortium to know and learn the expertise, quality of learning, facilities, and excellent hospitality provided by ITS and other host universities.
- Increasing mobility from and to all universities involving in the program.
- Creating ambassadors who will be powerful messenger for further partnership between ITS, Indonesian host universities, other UMAP members.
- Enhancing the confidence of Indonesian university members to accelerate their internationalization.
- Benefiting society that are involved in the program in understanding globalization and SDGs.
- Maintaining current collaboration with other UMAP members.
- Initiating new collaboration with new partners.
- All universities who receive and send students can count the number of students involve in the mobility as their international achievement.
- Showing ITS' commitment in UMAP leadership and membership.

Testimony of UMAP Discovery Camp 2024 Participants

The program's materials and activities at the UMAP Discovery Camp were nothing short of exceptional, offering a well-rounded and immersive experience for all participants. The activities each day were meticulously crafted, covering a diverse array of topics ranging from environmental sustainability to various methods of implementing SDGs. Each session was delivered with enthusiasm and expertise, providing valuable insights and sparking thought-provoking discussions among participants. The hands-on activities and group discussions were particularly engaging, allowing us to apply theoretical knowledge to real-world scenarios and fostering critical thinking skills. Overall, the program's materials and activities were both informative and inspiring, leaving a lasting impact to all of us.

- Kennedy De Guzman Agustin, Tarlac Agricultural University (Philippines)

Testimony of UMAP Discovery Camp 2024 Participants

My best experiences during the program were the visits to the labor-intensive businesses. It was informative and the in-person visits resulted in actual experience of what it is that the businesses do daily. The school visit was a chance to apply what we have learnt during the sessions. The closing ceremony was great because it was a chance for everyone to get together and celebrate the UMAP program. Last but not least, the Bromo adventurous trip, the beautiful scenery and food, and the chance to have fun with our peers.

- Foion Meeks, Okanagan College (Canada)

Testimony of UMAP Discovery Camp 2024 Participants

During UMAP Discovery Camp 2024, the experience to visit a local high school was out of my expectations. It truly made me re-think what I have and what I can contribute to society. The welcome they showed and the involvement they had during the lecture as high school students amazed me. I like how they took the chance to ask specific questions related to the topic and how polite they were while interacting with us. I truly want to participate and experience this kind of activity in Indonesia again. Not only gave me the chance to deliver knowledge to youths, but it also inspired me with a new perspective on the world. I am very thankful to have this opportunity.

- Kai En Lin, Chung Yuan Christian University (Taiwan)

UNIVERSITAS AIRLANGGA COLLABORATES WITH UMAP-consortium Creating Student Mobility Program

PERTH,
TUESDAY, 5 MARCH 2024

STUDENT MOBILITY AS THE HEART OF HIGHER EDUCATION INTERNATIONALIZATION

**CULTURAL
EXPOSURE**

**BETTER QUALITY
EDUCATION**

**GLOBAL
NETWORK**

**LEARNING NEW
LANGUAGE**

**CAREER
OPPORTUNITY**

AIRLANGGA ADVENTURE

- Collaborating with the UMAP consortium in organizing a student mobility program under the scheme, **Discovery Camp**
- Exploring and exhibiting Indonesian cultural immersion to international academicians during semester breaks
- Promoting the concept of preserving and protecting endangered species
- Enhancing students' awareness in nature conservation

Target 15.5

**Protecting and preventing the
extinction of threatened species**

SUSTAINABLE DEVELOPMENT GOALS

Target 15.C

**Protecting species to pursue
sustainable livelihood
opportunities**

**Achieving healthy and productive
oceans**

Target 14.2

AIRVENTURE 2022

- Exploring the rich diversity of flora and fauna in Indonesia
- Addressing strategies to combat poaching and the destruction of natural habitats.
- Participants are empowered to advocate for wildlife conservation, fostering global awareness of pressing environmental challenges
- Aiming to cultivate a community that is not only more cognizant of nature conservation but also remains mindful of sustaining livelihoods

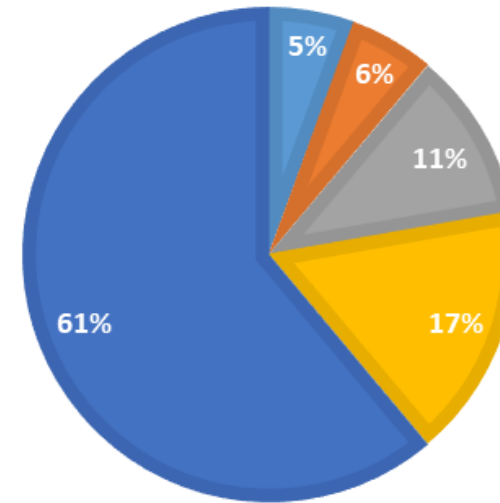

Airventure'22 participants

Courses offered

- Wildlife in Indonesia (Migrant Birds)
- Cases of Antimicrobial Resistance from Animal Products
- One Health
- Conservation in situ System
- Turtle Conservation
- Mitigation for Aquatic Mammal Problem
- *Bahasa Indonesia* Course

■ Japan ■ Hongkong ■ Canada ■ Philippines ■ Malaysia
