Overview of Our Strategic Priorities Innovative. Responsible. Sustainable.

Our 2023-27 Strategy

THE UNIVERSITY OF SYDNEY VISION

Building on the First Nations' knowledge of these lands, we are Australia's first university, Sydney's university and a great global university.

THE UNIVERSITY OF SYDNEY BUSINESS SCHOOL PURPOSE

Through our global community we develop responsible leaders by creating and mobilising impactful management knowledge to build prosperous, sustainable organisations for a healthy, inclusive society.

THE UNIVERSITY OF SYDNEY 2032 STRATEGY ASPIRATIONS

Our student-focused education is transformational

Our research is excellent, tackles the greatest challenges and contributes to the common good

Our community thrives through diversity
—
A better place to work, and a place that works better

THE UNIVERSITY OF SYDNEY BUSINESS SCHOOL STRATEGIC PRIORITIES

We design and deliver holistic, transformational educational experiences of excellent quality to develop responsible leaders and support their lifelong learning.

We engage with industry, government, civil society and academia to produce excellent research with clear, significant local and global impact.

We are a diverse, courageous, and thriving community whose management practices are excellent and sustainable.

Short Term Mobility Programs

Dalyell Unit: Disruption for Sustainable Futures

This Dalyell **research unit** delivery begins in Sydney over 4 Saturday Workshops and ends with 2 weeks in the field at Toronto University, Canada. **Explores sustainability-driven innovations that improve the efficiency, effectiveness, and wellbeing of organisations, societies, and the world in the long run.**

Students explore global grand challenges that require novel and cutting-edge solutions to take on our world's grand challenges. **In 2023, students focused on Sustainable Development Goal #11 Sustainable Cities and Communities.**

The **Learning Outcomes** include:

- **LO1.** Explain the unique nature of global complex problems.
- **LO2.** Design a research project aimed at systematically and rigorously exploring a research question associated with a complex problem.
- **LO3.** Implement a research project and effectively communicate research findings and recommended solutions to a complex problem.

TARGET 11.2 AFFORDABLE AND SUSTAINABLE TRANSPORT SYSTEMS

By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable situations, women, children, persons with disabilities and older persons.

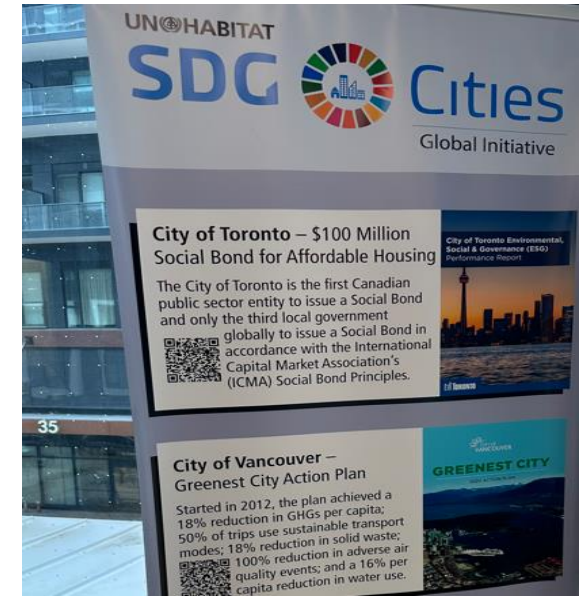

TARGET 11.7 PROVIDE ACCESS TO SAFE AND INCLUSIVE GREEN AND PUBLIC SPACES

By 2030, provide universal access to safe, inclusive and accessible, green and public spaces, in particular for women and children, older persons and persons with disabilities.

*So, what are the **Key Considerations, Key Risks & Best Practices** in developing & delivering a short-term mobility opportunity to students (and in respect to educators, facilitators)?*

Towards a sustainable future for international education in the Asia Pacific
APAIE Perth: 4-8 March 2024

Four Phases

1. Curriculum Design & Learning Outcomes
2. Cultivating Global Partnerships
3. Pre-Departure Tasks & Risk Management
4. Evaluation of STMP Experience

Phase 1: Curriculum Design & Learning Outcomes

- Fill in the gaps.....what considerations are important?

ACTIVITY	Considerations during development	Practice, Roles & Responsibilities Best Practice? Institution/Host partner	
Course Design	Pedagogically sound Does the Unit fit into the University's Strategic Plan? University approved? Interdisciplinary?		
Learning Outcomes	*Understand complex global issues *Design a research project to address a complex problem in a sustainable way *Understand SDGs and targets *Communicate research findings and write up of White Paper. *Soft Skills?		
Assessment Design			
Staffing/academic and professional staff expertise	Staff selection Cost of Program		

The **Learning Outcomes** include:

- L01.** Explain the unique nature of global complex problems.
- L02.** Design a research project aimed at systematically and rigorously exploring a research question associated with a complex problem.
- L03.** Implement a research project and effectively communicate research findings and recommended solutions to a complex problem.

What worked well (but time consuming for both educators and students)

- Group interactions and activities to get to know one another.
- Enabling students to identify their research area and RQ by the end of Workshop 2.
- Starting the Literature Review earlier in Workshop 2.
- Providing individual and group feedback each week.
- Encouraging various research methods and early data collection to commence in Sydney.
- Working with students on their Survey instruments.
- Student numbers ideal and suggest no more than 10-12 students on these heavy research trips.
- The camaraderie between students and with us as educators was incredible.
- Learning growth of students over the entire journey was immense and inspirational.

What worked not so well?

- Toronto Itinerary not finalised until week before students depart Sydney-thereby not sure of Data Collection opportunities and plan for in country data collection.
- Final Exams got in the way of further prep post Saturday workshops-so timing not that great.

Thank you Angela! This unit seemed out of my comfort zone but I've loved the experience and have learnt so much from you, the speakers and the other students.
