

## **The Great Intergenerational Food Transformation: Findings from two recent Lancet Commissions**

A Satellite Symposium to the 23<sup>rd</sup> IUHPE World Conference

Millennium Room 5, Millennium Hotel  
1270 Hinemaru Street, Rotorua  
Sunday 7 March 2019, 1:00-3:30pm

This symposium is free of charge

But please register by email to Tina Elliott [t.elliott@auckland.ac.nz](mailto:t.elliott@auckland.ac.nz)

**Prof. Boyd Swinburn**  
Co-Chair, *The Lancet*  
Commission on Obesity

The aim of this symposium is to present findings from two recent *Lancet* reports on creating healthy, sustainable, equitable, and prosperous food systems.

The EAT-Lancet Commission recently published its report on healthy and sustainable diets in the Anthropocene – how can we feed a planet healthy food AND stay within planetary boundaries?

Shortly after, the Lancet Commission on obesity published its report on The Global Syndemic of obesity, undernutrition and climate change – what are the systemic, triple-duty actions that can address all three of these pandemics?

Following the presentation, there will be short responses from four eminent international experts and a Q&A session between the audience and the panel of speakers and respondents.

**Dr. Sudhvir Singh**  
Director of Policy,  
EAT Forum/  
EAT-Lancet Commission

# Program

- 1:00 Mihi, **Paora Te Hurihanganui**, Te Arawa  
Welcome, **Prof Harry Rutter**, MC, Professor of Global Public Health,  
University of Bath, UK
- 1:10 **Dr Sudhvir Singh**, EAT Forum: How can we feed a planet healthy  
food AND stay within planetary boundaries?
