# Building thriving school communities

Exploring the characteristics of highly engaged school communities

Teachers create thriving learning communities by developing a mix of strategies to help schools identify their own areas for improvement.

Parents believe schools are strongest in student development and schooling experience

Parents have the highest Thriving Schools Index score of 54, followed by teachers (52) and students (48). The areas where parents believe schools are strongest are student development (53) and schooling experience (55). While the parents scored schools most strongly on students growing in their character (55) and the provision of quality facilities (52), the less so do parents identified for improvement are connection and belonging (46) and teaching (46). More specifically, the need to grow a sense of belonging in the school community (45), and teachers' effectiveness in catering for individual learning styles (45).

**THRIVING SCHOOLS INDEX SCORE**

Category	Teachers	Parents	Students
STUDENT DEVELOPMENT	52	54	48
TEACHING	52	46	46
STUDENT WELL-BEING	52	54	48
SCHOOLING EXPERIENCE	52	55	48
CONNECTION AND BELONGING	52	46	48
LEADERSHIP	52	46	48

● Teachers ■ Parents ◆ Students

16 Building thriving school communities

17 Building thriving school communities

Technology is used effectively to enhance the student schooling experience

There is quality equipment and facilities

There is clear communication between home and school

Curriculum activities meaningfully contribute to the student experience

Strong partnerships are built between staff, parents and students to achieve positive student outcomes

I feel like I belong in the school community

I am proud to be a part of the School community

I align with the values of the School community

I trust the leaders of the school

I align with the direction of the school

The school's leaders listen well

The school's leaders exemplify the school's culture and values
