

TRIPARTITE COLORECTAL MEETING 2022

22-24 FEBRUARY 2022, AUCKLAND, NEW ZEALAND

PROGRAMME

Tuesday 22 February 2022

Note: all times are in NZDT (UTC +13 hours)

		STREAM 1	STREAM 2	STREAM 3
0700-0730		Official Welcome Prof Ian Bissett		
0730-0830		Plenary 1: Looking forward, looking after Chair: Dr Rowan Collinson		
	0730-0750	Perspective on COVID 19 <i>Prof Michael Baker</i>		
	0750-0810	The future of surgery <i>Prof Sue Clark</i>		
	0810-0830	New technologies – Interfacing with industry <i>Prof Greg O'Grady</i>		
0830-0900 - MORNING TEA				
0900-1030		Plenary 2: Rectal cancer - 'Looking after' - the big picture Chair: A/Prof Tarik Sammour supported by 		
	0900-0920	Optimising the patient before rectal cancer surgery <i>Prof Susan Moug</i>		
	0920-0940	Survivorship after proctectomy for rectal cancer – what does it really look like? <i>Prof Anna Martling</i>		
	0940-1000	Is an ultralow colorectal anastomosis a surgical triumph? <i>Prof Tim Eglinton</i>		
	1000-1020	Optimising surveillance following curative colorectal cancer resection <i>Prof George Chang</i>		
10 min break				
1030-1100		John Goligher Lecture Chair: Prof Peter Sagar		
	1030-1100	Technologies shaping the surgical landscape <i>Prof David Jayne</i>		
1100-1200 - LUNCH				
1100-1150		Gore Lunch Symposium Chair: Prof Alexander Heriot sponsored by 		
	1100-1150	Management of Colorectal procedures using GORE® BIO-A® Tissue Reinforcement - Material Science and Inflammation <i>Mr Garry Jones</i> <i>A/Prof Cherry Koh</i>		

Tuesday 22 February 2022 - cont.

Note: all times are in NZDT (UTC +13 hours)

STREAM 1		STREAM 2		STREAM 3			
Symposium I.1a: Colorectal Neoplasia I Chairs: Mr Chris Wakeman & Dr Maree Weston supported by 		Symposium I.1b: Pelvic floor I: Pelvic organ prolapse Chairs: Dr Elizabeth Murphy & Mr Ian Lindsey		Stomal Therapy 1 Chair: Nicky Bates & Moderator: Dawn Birchall supported by  			
1200-1210	The rising tide - colorectal cancer in the younger patient <i>Dr James Church</i>	1200-1205	Debate – ‘Ventral rectopexy is the most complete rectal prolapse repair – affirmative’ <i>Prof Brooke Gurland</i>	1200-1300	gratitude with a small g - how this radical practice can help reduce stress and increase well-being <i>Kate Oliver, Keynote speaker / Mindfulness coach / Meditation teacher</i>		
		1205-1210	Debate – ‘Ventral rectopexy is the most complete rectal prolapse repair – negative’ <i>Prof David Lubowski</i>				
1210-1220	Colorectal neoplasia and the human microbiome <i>Mr James Kinross</i>	1210-1212	Rebuttal - <i>Prof Brooke Gurland</i>				
		1212-1214	Rebuttal - <i>Prof David Lubowski</i>				
1220-1230	Molecular oncology – what the surgeon needs to know <i>Dr Farhat Din</i>	1215-1225	Symposium panel discussion				
		1225-1235	Rectal prolapse surgery - explaining the options to your patient <i>Mr Andrew Williams</i>				
1230-1245	Symposium panel discussion	1235-1245	Ventral Mesh Rectopexy after 20 Years <i>Prof Andre D'Hoore</i>				
1245-1330	Research Papers	1245-1330	Research Papers				
1245-1251	Research Paper 125: The tumour microbiome and response to radiotherapy in rectal cancer <i>Dr Rachel Purcell</i>	1245-1251	Research Paper 190: Are novel and established anorectal physiology diagnostics associated with symptoms and quality of life in faecal incontinence? <i>Miss Caroline Byrne</i>				
1251-1257	Research Paper 92: Acid Ceramidase: A Potential Biomarker For Locally Advanced Rectal Cancer? <i>Miss Rachael Clifford</i> RSM Prize Winner	1251-1257	Research Paper 201: Repeat defaecating proctography for recurrent symptoms after laparoscopic ventral mesh rectopexy; Is failure of anatomical correction responsible for recurrence of symptoms? <i>Mr Sandeep Singh</i>				
1257-1303	Research Paper 232: Comparison of disease-specific outcomes of patients with early age onset colon cancer according to microsatellite status <i>Dr Alexandra Zaborowski</i>	1257-1303	Research Paper 287: Sarcopenia is a risk factor for pelvic organ prolapse independent of age <i>Prof Brooke Gurland</i>				
1303-1309	Research Paper 291: Novel functional links between colorectal carcinogenesis and the microbiome <i>Miss Jessica Permain</i>	1303-1309	Research Paper 191: Anal sphincter function deteriorates as the grade of rectal prolapse increases <i>Miss Caroline Byrne</i>			1300-1315	Pre operative preparation and impact on discharge <i>Wendy Sansom, Stomal Therapist</i>
1309-1315	Research Paper 428: A comparison of quality of life, symptom and functional outcomes following surgical treatment for colorectal cancer <i>Dr Christine Koulis</i>	1309-1315	Research Paper 409: When the p-value doesn't cut it: the Frailty Index applied to colorectal surgery related randomized controlled trials <i>Dr David Nelms</i>				
1315-1330	Research Q&A	1315-1330	Research Q&A			1315-1330	A stomal therapists experience of a novel chyme reinfusion device for high output enterostomies <i>Emma Ludlow, Stomal Therapist</i>
1330-1400 AFTERNOON TEA							

1200-1330

Tuesday 22 February 2022

Note: all times are in NZDT (UTC +13 hours)

STREAM 1		STREAM 2		STREAM 3	
Symposium I.2a: Intestinal failure Chairs: Dr Julian Hayes & A/Prof Tim Ridolfi supported by 		Symposium I.2b: Biomedical/biotech Innovations Chairs: A/Prof Chris Byrne & A/Prof Konrad Richter supported by 		Stomal Therapy 2 Chair: Julia Kittscha & Moderator: Fiona Gavegan	
1400-1410	Intestinal rehabilitation in short bowel syndrome <i>Dr Mattias Soop</i> RACS supported speaker	1400-1410	AI in Surgical Training <i>Dr Catherine Mohr</i>	1400-1430	Ovarian cancer, dilatation and intimacy issues <i>Amanda Tristram, Gynaecologist</i>
1410-1420	Advanced dressing techniques in the difficult entero-atmospheric fistula <i>Mrs Katy Martin-Skurr</i>	1410 - 1420	New directions in Colorectal cancer screening technologies <i>Dr Mifanwy Reece</i>		
1420-1505	Research Papers	1420-1505	Research Papers		
1420-1426	Research Paper 50: Detailed cost-analysis of in-hospital patients with type III intestinal failure. A single centre study with global implication. <i>Dr Adrian Siu</i>	1420-1426	Research Paper 421: Harnessing artificial intelligence to predict response to neoadjuvant therapy in rectal cancer <i>Dr Kasmira Wilson</i>		
1426-1432	Research Paper 30: Chyme reinfusion device for ileostomy patients: a feasibility study <i>Dr Chen Liu</i>	1426-1432	Research Paper 70: Equity of colonoscopy provision and quality in Māori and New Zealand Europeans: a comparative retrospective study <i>Mr Sameer Bhat</i>		
1432-1438	Research Paper 227: Distal feeding - bowel prehabilitation prior to restoration of gut continuity: which diet is best, and why? <i>Miss Stella Dilke</i>	1432-1438	Research Paper 128: Using the faecal immunochemical test in patients with rectal bleeding <i>Miss Georgina Hicks</i> RSM Prize Winner	1430-1530	Introduction to Mindfulness workshop <i>Kate Oliver</i> , Keynote speaker / <i>Mindfulness coach/ Meditation teacher</i>
1438-1444	Research Paper 136: A novel MRI-based scoring system to assess post-surgery healing and to predict long-term healing in cryptoglandular anal fistulas <i>Miss Mehak Sachdeva</i>	1438-1444	Research Paper 65: The use of the faecal immunochemical test (FIT) as a triaging tool for patients with symptoms of possible colorectal cancer (CRC): systematic review and meta-analysis <i>Dr Kai Sheng Saw</i>		
1444-1450	Research Paper 109: The impact of intravenous iron on physical activity levels in advanced cancer: results from the ICaRAS randomised controlled trial. <i>Mr Edward Dickson</i>	1444-1450	Research Paper 418: Tissue slice assays as an intact colorectal microenvironment for next generation drug development <i>Dr Simon Wilkins</i>		
1450-1505	Research Q&A	1450-1505	Research Q&A		
1505-1515	Refeeding Chyme <i>Prof Greg O'Grady</i>	1505-1515	Additive Manufacturing - medical applications <i>Prof Olaf Diegel</i>		
1515-1530	Symposium panel discussion	1515-1530	Symposium panel discussion		
1530-1600- LATE AFTERNOON BREAK					
STREAM 1		STREAM 2		STREAM 3	
High Tea 1: Transanal MIS - pushing the boundaries Convenor: Prof Dr Andrew Stevenson		High Tea 2: Minimally invasive colorectal surgery in the obese patient Convenor: Dr Stephen Bell and Dr Janindra Warusavitarne		High Tea 3: Peritoneal malignancy surgery in 2022 Convenor: Dr Jamish Gandhi	
1600-1615	Transanal Beyond TME <i>A/Prof Satish Warriar</i>	1600-1610	The outcomes of surgery in the obese population <i>Dr Stephen Bell</i>	1600-1610	PMP classification - finding the diamond in the rough <i>Norman Carr</i>
1615-1630	Transanal Robots <i>Dr John Marks</i>	1610-1620	Peri-operative considerations in the obese patient <i>Dr Parry Singh</i>	1610-1620	PMP preoperative workup - decisions versus incisions <i>Mr Brendan Moran</i>
		1620-1630	Pre-operative predictors of conversion <i>Mr John Evans</i>	1620-1630	Pushing the surgical boundaries in PMP <i>Mr Sanjeev Dayal</i>
1630-1645	Transanal approach to managing complications <i>Prof Sam Atallah</i>	1630-1640	Minimally-invasive techniques in the obese population - pros and cons <i>Dr Pia Bernardi</i>	1630-1640	Surgery for colorectal peritoneal disease in the presence of metastases <i>Dr Nabila Ansari</i>
1645-1700	Panel discussion	1640-1700	Panel discussion	1640-1700	Panel discussion
Olympus Australia Evening Symposium Chair: Dr Hamish Urquhart sponsored by 					
1700-1745	Artificial Intelligence in Colonoscopy <i>Dr Rohan Gett</i>				

Wednesday 23 February

Note: all times are in NZDT (UTC +13 hours)

STREAM 1		STREAM 2		STREAM 3
Symposium II.1a: Preoperative optimisation Chairs: Prof Andrew Hill & Dr Nicole Saur supported by 		Symposium II.1b: Colorectal neoplasia II Chairs: Dr Farhat Din & Siraj Rajaratnam		
0700-0710	The young patient facing a stoma - let them educate you! <i>Miss Gemma Davidson</i>	0700-0710	The elderly colorectal surgical patient - balancing functional and oncological outcomes <i>Dr Isacco Montroni</i>	
0710-0720	Functional assessment and prehabilitation - what does it look like and can we agree? <i>Prof Susan Moug</i>	0710-0720	Complete mesocolic excision - standard or selective? <i>Prof George Chang</i>	
0720-0805		0720-0805		
0720-0726	Research Paper 147: Impact of STIMULant and osmotic LAXatives (STIMULAX trial) on gastrointestinal recovery after colorectal surgery: randomized clinical trial <i>Dr Nagendra Dudi-Venkata</i>	0720-0726	Research Paper 44: MRI-diagnosed tumour deposits and EMVI status have superior prognostic accuracy to current clinical TNM staging. <i>Ms Amy Lord</i> RSM Prize Winner	
0726-0732	Research Paper 55: Mental Health Diagnosis, Not Patient Reported Outcomes, is Predictive of Enhanced Recovery After Surgery Failure Following Elective Colon Resection <i>Dr Robert Shaw</i>	0726-0732	Research Paper 23: Meta-analysis of complete mesocolic excision hemicolectomy vs standard hemicolectomy: a pause for reflection <i>Ms Hye Yoon Song</i>	
0732-0738	Research Paper 118: Short-Duration High Intensity Interval Training improves presurgical fitness before Major Abdominal Surgery <i>Dr John Woodfield</i>	0732-0738	Research Paper 288: Quality of life preferences in colorectal cancer patients aged 80 and over <i>Dr Andrew McCombie</i>	
0738-0744	What happens after an Emergency Laparotomy? <i>Mrs Julie Cornish</i> CSSANZ Travelling Fellowship	0738-0744	Research Paper 220: Accurate MRI interpretation and optimal surgery limits the need for neoadjuvant radiotherapy: Local recurrence and survival in 378 patients treated by surgery alone. <i>Ms Amy Lord</i>	
0744-0750	Research Paper 296: A randomized controlled trial of mindfulness in the recovery from colorectal cancer. <i>Dr Andrew McCombie</i>	0744-0750	Research Paper 94: Tailored strategy for locally-advanced rectal carcinoma (GRECCAR 4 trial): long-term results and prospects for the future <i>Prof Philippe Rouanet</i>	
0750-0805	Research Q&A	0750-0805	Research Q&A	
0805-0815	Preoperative optimisation - a patient's perspective <i>Kate Oliver</i>	0805-0815	Pelvic exenteration - pushing through borders and boundaries in 2022 <i>Prof Peter Sagar</i>	
0815-0830	Symposium panel discussion	0815-0830	Symposium panel discussion	
0830-0900 MORNING TEA				

0700-0830

Wednesday 23 February - cont.

Note: all times are in NZDT (UTC +13 hours)

0900 - 0930		STREAM 1	STREAM 2	STREAM 3
		ESR Hughes Oration Chair: Ian Faragher		Stomal Therapy 3 Chair: Emma Ludlow & Moderator: Angela Makwana supported by 
	0900-0930	Anal squamous cell cancer – translating to the future <i>Prof Alexander Heriot</i>		0900-1000 Workshop - Cancer, PTSD, and the unexpected teachings of drag-racing - a practical exploration of how Mindful Self-Compassion can support us in times of traumatic stress <i>Kate Oliver, Mindfulness coach/ Meditation teacher</i>
		Symposium II.2a: The Colorectal anastomosis Chairs: Prof Steve Brown & Dr Catherine Turner supported by 	Symposium II.2b: Benign Colorectal Chairs: Mr Justin Davies & Dr Jodie Ellis-Clark supported by 	
	0930-0940	Anastomotic leak - can we predict it, and who's to blame? <i>Prof Susan Moug</i>	0930-0940 Uncomplicated diverticulitis - optimal non-surgical management <i>Siraj Rajaratnam</i>	
	0940-0950	Bugs and leaks - spying on the microbiome <i>Dr Neil Hyman</i>	0940-0950 How and who to operate on perforated diverticulitis? <i>Prof Des Winter</i>	
	0950-1035	Research Papers	0950-1035	Research Papers
	0950-0956	Research Paper 99: Drain fluid amylase as a biomarker for the detection of anastomotic leakage after rectal resection without a diverting ileostomy <i>Nicholas Smith</i>	0950-0956 Research Paper 38: The STAND Study (Selective Treatment with Antibiotics for Non-complicated Diverticulitis) <i>Dr Rebekah Jaung</i>	
	0956-1002	Research Paper 306: Monitoring institutional use of permanent stomas and closure of temporary stomas in rectal cancer resections <i>Dr Kate Walker</i>	0956-1002 Research Paper 171: Endoscopic findings after acute diverticulitis: a systematic review and meta-analysis <i>Dr Amy Cao</i>	
	1002-1008	Research Paper 341: Mental Health Outcomes Following Restorative Proctectomy for Rectal Cancer: A Systematic Review and Meta-analysis <i>Jeongyoon Moon</i>	1002-1008 Research Paper 299: Efficacy of transcatheter angioembolisation in the setting of lower gastrointestinal bleed <i>Dr Krishna Kotecha</i>	1000-1030 High output stoma & clostridium difficile <i>Dr Corina Behrenbruch, Colorectal Surgeon</i>
	1008-1014	Research Paper 164: Detection of anastomotic leakage following elective colonic surgery: results of the prospective Biomarkers and Anastomotic Leakage (BALL) study <i>Dr Bruce Su'a</i>	1008-1014 Research Paper 35: Topical versus Oral Metronidazole Following Excisional Haemorrhoidectomy: A Double-Blind Randomised Controlled Trial <i>Dr Wes Xia</i>	
	1014-1020	Research Paper 80: Surviving rectal cancer at the cost of a colostomy - a global survey of long-term HRQoL in ten countries <i>Helle Kristensen</i>	1014-1020 Research Paper 103: Living with cryptoglandular anal fistula: A qualitative investigation of patient experiences and desirable treatment outcomes <i>Miss Nusrat Iqbal</i>	
	1020-1035	Research Q&A	1020-1035	Research Q&A
	1035-1045	Immediate and late salvage of the failed colorectal anastomosis <i>Prof Dr Willem Bemelman</i>	1035-1045 Endometriosis: the colorectal surgeon <i>Prof Andre D'Hoore</i>	1030-1100 Nutrition and fluid management of Intestinal Failure <i>Andrew Xia, Dietician</i>
	1045-1100	Symposium panel discussion	1045-1100	Symposium panel discussion
1100-1200 - LUNCH				
		Ethicon (J&J NZ) Lunch Symposium Chair: Prof Tim Eglinton sponsored by 		
	1100-1105	Intraoperative quality measures to reduce anastomotic leaks.		
	1105-1120	Technology Factors: Echelon Circular study <i>Prof Vicente Pla-Marti</i>		
	1120-1135	Intraoperative measures <i>Dr Ron Landmann</i>		
	1135-1145	Panel discussion		

Wednesday 23 February - cont.

Note: all times are in NZDT (UTC +13 hours)

		STREAM 1	STREAM 2	STREAM 3	
1200-1230	Rupert Turnbull Oration Chair: Prof Thomas Read			Stomal Therapy 4 Chair: Fiona Bolton & Moderator: Amanda Summers	
	1200-1230	What would Dr Turnbull say? <i>Prof Tracy Hull</i>		1200-1215	Prospective measurement of the trajectory of adjustment outcomes among new stoma patients up to nine months after surgery <i>Julia Kittscha, Stomal Therapist</i>
1230-1330	Plenary 3: International collaboration: Tripartite 2020 Vision projects Chairs: Prof Ian Bissett & Dr Nicola Fearnhead				
	1230-1235	Tripartite Vision: Tripartite Research Collaborations <i>Dr Nicola Fearnhead</i>			
	1236-1240	LARS: Defining Low Anterior Resection Syndrome <i>Dr Celia Keane</i>			
	1241-1245	PROPS: Patient-Reported Outcomes after Pouch Surgery <i>Prof Liliانا Bordeianou and Mr Paul Cavallaro</i>			
	1246-1250	DAMASCUS: The Road from DAMASCUS <i>Mr Dale Vimalachandran</i>			
	1251-1255	ELF2: Emergency Laparotomy and Frailty – Defining the Denominator <i>Mr Steve Knight and Ms Angeline Price</i>			
	1256-1300	PAPooSE: Pregnancy and Stomas – what do patients need to know? <i>Ms Sue Blackwell</i>			
	1301-1305	SUNRRRISE: Breaking Results from SUNRRRISE <i>Mr Richard Wilkin</i>			
	1306-1310	GIR-COS: Core Outcome Sets for Ileus and Small Bowel Obstruction <i>Dr Stephen Chapman and Mr Matthew Lee</i>			
	1311-1315	PLATO: The Impact of the Surgical Personality <i>Miss Carly Bisset</i>			
	1316-1320	ENiGMA CODE: Core Descriptors in Perianal Crohn's Fistula <i>Miss Kate Williams and Mr Matthew Lee</i>			
	1321-1325	DISCO: Defining standards in Colorectal Optimisation <i>Prof Susan Moug</i>			
1326-1330	EAGLE: A Vision for the Future of Tripartite Collaborations <i>Prof Charles Knowles</i>				
		1215-1245	VACTERL syndrome <i>Jon Wells, Paediatric Surgeon</i>		
		1245-1310	Informed Consent <i>Kiri Rademacher, NZNO</i>		
		1310-1330	Medicinal Cannabis <i>Dr Graham Gulbranson, GP, Cannabis Consultant, Addiction Specialist</i>		
1330-1400 AFTERNOON TEA					

Wednesday 23 February - cont.

Note: all times are in NZDT (UTC +13 hours)

STREAM 1		STREAM 2		STREAM 3	
Symposium II.3a: IBD I Chairs: A/Prof David Clark & Dr Michelle Thomas		Symposium II.3b: Pelvic floor II (Motility and neuromodulation) Chairs: A/Prof Cherry Koh & Dr James Keck		Stomal Therapy 5 Chair: Rochelle Pryce & Moderator: Nicky Bates	
1400-1410	Novel MABs in Crohn's Disease - update for surgeons <i>Dr Zoe Raas</i>	1400-1410	Postoperative ileus <i>Prof Ian Bissett</i>	1400-1425	The benefits of preoperative physiotherapy on postoperative recovery for abdominal surgery patients <i>Michelle Paton – Physiotherapist</i>
1410-1420	Perianal Crohn's disease - present and future <i>A/Prof Amy Lightner</i>	1410-1420	Colonic manometry - advancing our understanding of Colorectal Dysfunction <i>Prof Greg O'Grady</i>		
1420-1505	Research Papers	1420-1505	Research Papers		
1420-1426	Research Paper 375: How well do patient perceptions of severity correlate with the Inflammatory Bowel Disease Severity Score and what factors moderate this association? <i>Dr Andrew McCombie</i>	1420-1426	Research Paper 90: Sacral nerve stimulation modulates distal colonic motility in patients with faecal incontinence <i>Mr Chris Varghese</i>	1425-1530	Stomal Therapy Innovations
1426-1432	Research Paper 100: Multi-centre study of drain fluid amylase as a sensitive biomarker for the detection of anastomotic leakage after ileal pouch surgery without a diverting ileostomy <i>Nicholas Smith</i>	1426-1432	Research Paper 432: Body Surface Colonic Mapping for non-invasive detection distal colonic motility <i>Dr Sean Ho Beom Seo</i>	1425-1435	Oral Rehydration Solution reduces Readmissions with Dehydration in newly formed Ileostomy Patients <i>Katy Martin-Skurr</i>
1432-1438	Research Paper 88: Benefits of exclusive enteral nutrition in adults with complex active Crohn's disease: A case series of 13 consecutive patients <i>Dr Jianliang Liu</i>	1432-1438	Research Paper 297: Propensity matched analysis of the cost of postoperative ileus following colorectal surgery from an Australian institution <i>Dr Luke Traeger</i>		
1438-1444	Research Paper 102: The development of a cryptoglandular Anal Fistula Core Outcome Set (AFCOS) <i>Miss Nusrat Iqbal</i>	1438-1444	Research Paper 139: The longitudinal course of low anterior resection syndrome: an individual patient data meta-analysis <i>Mr Chris Varghese</i>	1435-1445	Mucocutaneous Junction Separation: A Descriptive Study <i>Henrietta Martin</i>
1444-1450	Research Paper 258: Outcomes in pouch anal and vaginal fistula according to aetiological classification <i>Ms Lillian Reza</i>	1444-1450	Research Paper 231: Ideal surgical technique for lead placement in sacral neuromodulation – a comparative cadaver study <i>Dr Christopher Dawoud</i>	1445-1455	Fixing the Hole in a Changing World <i>Rebecca Foot-Connolly</i>
1450-1505	Research Q&A	1450-1505	Research Q&A	1455-1505	Effect of Pelvic Surgery on Male Sexual Function <i>Melissa Hadley Barrett</i>
1505-1515	IPAA in UC - picking your winners, and optimising functional outcome <i>Dr Jean Ashburn</i>	1505-1515	Sacral neuromodulation - Optimising outcomes <i>Prof Dr Klaus Matzel</i>	1505-1530	Panel Discussion, Q&A
1515-1530	Symposium panel discussion	1515-1530	Symposium panel discussion	1530	NZNOCSTN BGM (via ZOOM)
1530-1600- LATE AFTERNOON BREAK					
STREAM 1		STREAM 2		STREAM 3	
High Tea 4: Perineoplastics Convenor: Dr Mike Hulme-Moir		High Tea 5: Robotic Surgery Convenor: A/Prof Tarik Sammour		High Tea 6: The ileal pouch in IBD Convenors: Prof Tim Eglinton & A/Prof Mark Thomson-Fawcett	
1600-1610	Pelvic wound closure after APR and ELAPE <i>Per Nilsson</i>	1600-1610	Robotic surgery beyond TME: lateral node dissection and pelvic exenteration <i>Prof George Chang</i>	1600-1610	Indications and ileal pouch construction <i>A/Prof David Clark</i>
1610-1620	VRAM vs IGAM flaps <i>Mike Hulme-Moir</i>	1610-1620	Robotic CME: complete mesocolic excision + central vascular ligation <i>Dr Danilo Miskovic</i>	1610-1620	Transanal IPAA <i>Prof Dr Albert Wolthuis</i>
1620-1630	Vaginal reconstruction after exenteration <i>A/Prof John Mathy</i>	1620-1630	eTEP & Parastomal Hernia Repair <i>Dr Darren Tonkin</i>	1620-1630	Diagnosis and management of the dysfunctional pouch <i>Dr Jean Ashburn</i>
1630-1640	Mesh Reconstructive Options in Pelvic Exenteration Surgery – Depends! <i>Dr Kirk Austin</i>	1630-1640	How to set up a public hospital robotic surgery program: implementation + cost <i>Dr Kate McBride</i>	1630-1640	Techniques in pouch revision and excision <i>Prof Sue Clark</i>
1640-1700	Panel discussion	1640-1700	Panel discussion	1640-1700	Panel discussion
Medtronic Australia Evening Symposium Chair: Prof Alexander Heriot sponsored by Medtronic					
1700-1745	Vascular Challenges in Advanced Pelvic Malignancy <i>Jacob McCormick</i> <i>Minimally Invasive Exenterations and Beyond TME Surgery - Pushing the boundaries</i> <i>A/Prof Satish Warriar</i> Q&A				

1400-1530

1600-1700

1700-1745

Thursday 24 February

Note: all times are in NZDT (UTC +13 hours)

		STREAM 1		STREAM 2		STREAM 3		
0700-0815	Plenary 4: Rectal cancer - from Miles to millimetres Chair: Prof Frank Frizelle Supported by 							
	0700-0715	Rectal preservation: Early Rectal Cancer <i>Mr Chris Cunningham</i>						
	0715-0730	Conventional radiotherapy for locally advanced rectal cancer - navigating the options <i>Prof Anna Martling</i>					Stomal Therapy 6 Chair: Wendy Sansom & Moderator: Mary-Jane Betlehem	
	0730-0745	Strategies in rectal preservation - is TNT the new standard? <i>Prof Thomas Read</i>					0730-0745 Health Care Professionals (HCPS). Interactions with the Medical Devices Industry <i>Paris Purnell, Hollister Incorporated</i>	
	0745-0800	TaTME - who, where and by whom <i>Dr Stephen Bell</i>					0745-0805 Rectal Trauma from Enema Administration <i>Fiona Lee Gavegan, Stomal Therapist</i>	
	0800-0815	Lateral pelvic lymph nodes - tailoring treatment <i>Prof George Chang</i>					0805-0835 Exenteration and VRAM (flaps) <i>Mike Hulme-Moir, Colorectal Surgeon</i>	
15 min break							0835-0900	Early reversals <i>Dr Michael Johnston, Colorectal Surgeon</i>
0830-0900	Lars Pahlman Oration Chair: Prof Dr Klaus Matzel							
	0830-0900	Rectal cancer surgery – open to lap and back again <i>Prof Torbjörn Holm</i>						
0900-0930 MORNING TEA								
0930-1100	Symposium III.1a: Abdominal wall/parastomal hernia Chairs: Dr Chris Gillespie & Dr Susan Shedda supported by 		Symposium III.1b: IBD II Chairs: Dr Michael Johnston & A/Prof Amy Lightner supported by 					
	0930-0940	Parastomal hernia - not inevitable? Specialist nurses perspective <i>Mrs Amanda Gunning</i>	0930-0940	The role of the appendix in Ulcerative Colitis <i>Dr Christianne Buskens</i>				
	0940-0950	Surgical prevention of parastomal hernia <i>Prof Neil Smart</i>	0940-0950	Ileocolic resection for Crohns disease <i>Prof Steve Brown</i>				
	0950-1035	Research Papers	0950-1035	Research Papers				
	0950-0956	Research Paper 36: Efficacy and safety of mesh closure of vertical laparotomy and extraction incisions in colorectal surgeries: Systematic review and meta-analysis <i>Mr Mohamed Albendary</i>	0950-0956	Research Paper 269: The impact of postoperative Packing of Perianal Abscess Cavities: a multicentre randomised controlled trial <i>Katy Newton</i>				
	0956-1002	Research Paper 114: Abdominal and perineal hernia rates following vertical rectus abdominis myocutaneous (VRAM) flap reconstruction - a supraregional experience <i>Dr Eric Kim</i>	0956-1002	Research Paper 370: How does inflammatory bowel disease affect 2-year cancer specific mortality after colorectal cancer resection in England and Wales? <i>Dr Angela Kuryba</i>				
	1002-1008	Research Paper 45: How effective are deep fixation and extraperitoneal approaches in preventing stoma complications: A meta-analysis. <i>Mr Mohamed Albendary</i>	1002-1008	Research Paper 376: Identifying factors associated with trust in telemedicine <i>Miss Meghna Katta</i>				
	1008-1014	Research Paper 339: Does utilisation of surgical humidification reduce surgical site infection (SSI) in colorectal surgery patients? A randomised control trial at a major tertiary hospital <i>Mr Asiri Arachchi</i>	1008-1014	Research Paper 133: Microbiome Diversity Predicts Surgical Success in Patients with Rectovaginal Fistula <i>Dr Douglas Leach</i>				
	1014-1020	Research Paper 423: Pelvic floor mesh reconstruction for empty pelvis syndrome post extensive surgical resection <i>Dr Alexander McCarthy</i>	1014-1020	Research Paper 434: Surgical Humidification impacts Local and Systemic inflammation and Peritoneal Trauma in Colorectal Cancer Surgery: a Randomised Controlled Trial <i>Prof Robert Ramsay</i>				
	1020-1035	Research Q&A	1020-1035	Research Q&A				
	1035-1045	It's complicated': Navigating major abdominal wall reconstruction and parastomal herniation <i>Dr Damien Petersen</i>	1035-1045	Dysplasia in UC - optimal diagnostic approach and monitoring <i>Dr Tamara Glyn</i>				
	1045-1100	Symposium panel discussion	1045-1100	Symposium panel discussion				

Thursday 24 February - cont.

Note: all times are in NZDT (UTC +13 hours)

1100-1200 LUNCH

Device Technologies Lunch Symposium Chair: Dr Stephen Pillinger sponsored by 		
	Where does da Vinci sit in Colorectal practice? How we've done it in Australia	
1100-1115	da Vinci – how it started, how it's going <i>A/Prof Craig Lynch</i>	
1115-1130	The data says it all Fellowship program – teaching the younger generation <i>Dr Stephen Pillinger</i>	
1100-1140	Update on RoLaCaRT (Robotic versus Laparoscopic Colon – a Randomized Trial) <i>Prof Dr Andrew Stevenson</i>	
1140-1150	Panel Q&A	

STREAM 1		STREAM 2		STREAM 3	
Symposium III.2a: Minimally invasive surgery Chairs: Dr Carina Chow & A/Prof Sharon Stein supported by 		Symposium III.2b: Neoplasia III Chairs: A/Prof Craig Lynch & Dr Nabila Ansari		Stomal Therapy 7 Chair: Angela Makwana & Moderator: Chris Cameron	
1200-1210	Robot wars - new developments and horizons <i>Dr Patricia Sylla</i>	1200-1210	Quality and significant colorectal polyps - the SPECC programme <i>Mr Brendan Moran</i>	1200-1225	Mitrofanoff and continent urinary diversions <i>Hazel Ecclestone, Urologist</i>
1210-1220	Robotic endoluminal surgery <i>Prof Sam Atallah</i>	1210-1220	Appendiceal mucinous tumours - what you and your MDTM need to know <i>Dr Jamish Gandhi</i>		
1220-1305	Research Papers	1220-1305	Research Papers		
1220-1226	Research Paper 315: Initiating robotic colorectal cancer surgery: careful pathway design achieves excellent outcomes compared to NBOCA dataset 19/20 <i>Mr Alastair Morton</i>	1220-1226	Research Paper 142: Meta-Analysis on the Management of Malignant Polyps <i>Dr Andrew Zammit</i>	1225-1245	Faecal Microbiota Transplantation (FMT) <i>Fiona Williams, CNS Gastroenterology</i>
1226-1232	Research Paper 184: Open vs Laparoscopic vs Robotic vs Trans-anal Total Mesorectal Excision (TME) for rectal cancer – a Network Meta-analysis <i>Dr Nagendra Dudi-Venkata</i>	1226-1232	Research Paper 410: Oncological outcomes and haematological biomarkers of anal squamous cell carcinoma treated with intensity modulated radiotherapy according to the Australasian Gastrointestinal Trials Group (AGITG) guidelines <i>Dr Wei Mou Lim</i>		
1232-1238	Research Paper 333: The laparoscopic colorectal difficulty grade: the first steps in standardised operative technical skill assessment <i>Dr Isaac Tranter-Entwistle</i>	1232-1238	Research Paper 449: Patients with Anal Cancer have Low Functional and High Symptomatic Health-related Quality of Life Scores <i>Dr Meridith Ginesi</i>		
1238-1244	Research Paper 74: Lower conversion rates with robotic assisted rectal resections compared with conventional laparoscopy; a national cohort study <i>Ms Elisabeth Myrseth</i>	1238-1244	Research Paper 233: The TRIGGER Trial - early results of a rectal cancer multicentre RCT to avoid surgery with 'watch and wait' or intensify treatment according to mrTRG <i>Miss Nicola Hodges</i>		
1244-1250	Research paper 304: Diverticulitis Management, a Snapshot Collaborative Audit Study (DAMASCUS) an international, multicentre, prospective observational study. Preliminary results of the first 4000 patients <i>Ms Hayley Fowler</i>	1244-1250	Research Paper 3: Organoid based personalised medicine for patients with colorectal peritoneal metastases <i>Dr Vignesh Narasimhan</i>		
1250-1305	Research Q&A	1250-1305	Research Q&A	1245-1315	Complex Patient Discussion <i>NZNOCSN committee</i>
1305-1315	How best to train in a new minimally invasive technique? <i>Dr Kim-Chi Phan-Thien</i>	1305-1315	Peritoneal recurrence in CRC - who is at risk and what can we do? <i>A/Prof Cherry Koh</i>		
1315-1330	Symposium panel discussion	1315-1330	Symposium panel discussion		
				1315-1330	Stomal Therapy Close <i>Nicky Bates</i>

1330-1400 AFTERNOON TEA

1200-1330

Thursday 24 February - cont.

Note: all times are in NZDT (UTC +13 hours)

STREAM 1		STREAM 2	STREAM 3
1400-1530	Plenary 5: 'Looking forward' Chair: Dr Sze-Lin Peng		
	1400-1415	Sustainable surgery - What can surgeons do? <i>A/Prof Andrew MacCormick</i>	
	1415-1430	Robotic surgery; Is this what patients want? <i>A/Prof Tarik Sammour</i>	
	1430-1445	The recovery - meeting the challenge of unmet need after COVID19 <i>Prof Tan Arulampalam</i>	
	1445-1500	Training a workforce that mirrors our Society <i>Dr Maxine Ronald</i>	
	1500-1530	Closing address <i>Dr Rowan Collinson</i>	
MEETNG CLOSED
